EDUCATION

Nirma University

B.Tech - Computer Science and Engineering - **CGPA - 8.55**

2023 – 2027

Ahmedabad, Gujarat

EXPERIENCE

Matter Assist

December 2024 - Present

Role - Full-Stack Developer

Hybrid

- Develop and maintain scalable RESTful APIs using Node.js, Express.js, and Flask to power legal-tech solutions.
- Optimized backend performance, ensuring secure data handling and seamless integration with frontend services.
- Utilized Git for version control to collaborate with team members, manage changes, and resolve conflicts efficiently.

Girl Script Summer of Code

October 2024 - November 2024

Role - Contributor

Online

- Contributed to open-source web-dev projects, enhancing UI and backend using React.js, Node.js, Express.js, MongoDB.
- Implemented RESTful APIs, authentication, and database integration to improve system functionality.
- Collaborated with global developers to optimize performance and resolve issues in large-scale applications.

PROJECTS

Environmental Sustainability Analysis System | Github

October-2025

- Technology:** React.js, Flask, MongoDB, AI/ML, OpenWeatherMap API, Leaflet.js.
- Built a web platform that computes an AI-powered ESS, assessing earthquake, flood, and pollution risks.
- Interactive map to display Environmental impact using real-time data from OpenWeather and Earth Engine.
- Produced reports on AQI effects, emissions (PM10, CO2), tree replanting needs, and mitigation strategies.
- Enhanced system efficiency for real-time assessments and improved UX with dynamic visual components.

Game : Zombie Runner | Preview

July-2024

- Technology :** Unity-6, C#, Unity AI
- Developed a 3D first-person survival game where players combat waves of zombies using various weapons.
- Designed AI-driven enemies track and engage the player, enhancing the game's challenge and unpredictability.
- Implemented mechanics for resource management, ammo collection, health monitoring, survival progression.
- Optimized gameplay performance to smooth operation across platforms like Windows, WebGL, and macOS.

Youtube-Clone | Github

Sept-2024

- Technology:** React.js, Node.js, Express.js, MongoDB, Axios, Tailwind-CSS, Nodemon.
- Features:** User registration, login, profile updates, playlists, video upload/editing, and responsive UI.
- Implemented **JWT authentication** for secure user verification and session management.
- Developed **CRUD APIs** with RESTful architecture, integrating MongoDB for frontend-backend interactions.

TECHNICAL SKILLS

Languages: C/C++, C#, Java, Python, JavaScript, HTML, CSS

Technologies/Frameworks: NodeJS, Express, Spring Boot, Flask, OpenCV, TensorFlow

Database : MongoDB, MySQL

Developer Tools: Unity, Unity Hub, Git, Github, Vs Code

Course : Object Oriented Programming, Machine Learning, Game Development

Soft-Skills: Dedicated to Self Learning, Teamwork, Adaptability

ACHIEVEMENTS

Codeforces: Achieved **Pupil Rank**, Max Rating: **1376**

CodeChef: Achieved **3-Star**, Max Rating: **1698**, Solved, Achieve **121 Rank** in CodeChef Starters 135 division 3

- Solved **1000+** Competitive Programming and DSA problems across multiple platforms.
- Secure **72 Rank** in GSSoc'24 Extd.
- Selected among the top 35 teams in college for **Smart India Hackathon**.
- Achieved a **top 5** position in the **Space NASA Global Challenge** at the Nirma-University Region
- Secured **1470 Rank** in **CodeFest'25 Prelims**, conducted by IICPC among 45,000 participants.

POSITION OF RESPONSIBILITY

Club Director - CodeAdda Programming Club, Nirma University

Nov 2024 - Present

- Organized programming and algorithmic competitions, fostering a competitive coding culture, and coordinated tech events to engage and develop students' skills.
